   What was the Main Topic: _______________________________________

38. Write down the team members supporting the community:

   ____________________________
   ____________________________
   ____________________________
   ____________________________

Why do you have to fill up correctly this MEBA?
When the Leaders gather to fill in the MEBA it is possible to SEE better how is the situation of the pregnant women and children of the community. Together it is easier to DISCERN, in other words, think about the situation of the families, discuss the monthly results and find the ways to ACT to improve the life of the community.

In National Coordination, the MEBA’s information from your community are typed. Every 3 months, the National Coordinator forwards a report to the Parish, Diocesan and Province Coordinator on the health situation and development of children and pregnant women followed up, according to the MEBA. This report contains messages for leaders, congratulating them for the progress achieved and gives guidelines on how to help the families followed up.

With this report in hands, the Parish Coordinator should meet with their leaders to EVALUATE the results, to CELEBRATE what’s going on well and plan their ACT so that all children may have life and life in all its fullness!

Getting to know the Pastoral Care for Children activities and results, Government and Society have the opportunity to participate in this effort to build a fair and fraternal society.

Deadline for sending MEBA:
- Up to the 10th day: the leaders and Barangay Coordinators fill in the MEBA together, with all the information related to the previous month, and send them to the Parish Coordinator so they may follow the community’s development. After that, the Parish Coordinator will consolidate the MEBA and will send to the Diocesan Coordinator.
- Up to the 20th day: the Parish Coordinator will review, consolidate and sign the MEBA, and then send it to the National Office at the following address:

Pope Pius XII Catholic Center
Pastoral Care for Children, Room 301
1175 United Nations Avenue, Paco Manila, 1007 - Philippines
0921-5855570 / 0939-9132270 or 0917-5860949
pci-philippines@hotmail.com or pciphilippines@gmail.com

It is through the MEBA that we can know all the results of our work. The Pastoral Care for Children develops in the Philippines a dynamic, efficient and permanent follow up and evaluation of the activities. Therefore the information must be correct. When there are mistakes in filling in the MEBA, we will return it to the Diocesan Coordinator and she/he will forward it to the Parish Coordinator with a letter explaining what they have to do. This letter should be read together with the leaders, and correct the MEBA’s mistakes and than return it to the National Office.

Dear Volunteers and Coordinators: We appreciate the efforts and commitment of every one of you. Your love and generosity for the poor are of great value before the people and before God.
